The Mayor's Corner

As we wind down the summer months and begin to plan for the fall and winter, I want to wish all the school students and staff a great school year. We all appreciate what the educators have been doing to adapt to the new ways to teach, and I see and hear what parents have to go through on a daily basis to help homeschool their children even while trying to do their day job from home.

Our road paving program will be completed this month and we are working on assessing the list of roads for 2021. After several years now of doing micro-surfacing on roads that qualify for that paving method, it seems to be working and saving us money.

Our COVID-19 numbers have been constant for the past month with a total of 94 residents testing positive since March, and 1,041 testing negative. Wearing masks and clean hygiene will continue to be part of

our daily practices, keeping a safe distance in public and avoiding crowded areas are also part of what we all need to do to remain safe and keep our numbers low.

As we prepare for the fall and winter activities and holidays, it is forecasted that this winter will bring heavier than usual precipitation, in the form of snow. We are as ready as we can be but, it's likely that we will have more power outages with heavy snow and ice.

Enjoy the fall weather and please continue to report potholes and road issues. Stay safe and be well!

Montvale Police Department

As of September, our schools have reopened for in person classes, so welcome back to the students and faculty. July 1st marked the retirement of Sgt. Allison McNeice after 25 years of service. Sgt. McNeice devoted a large part of her career to the DARE program, and was a positive influence on the Borough's youth. Also, one of our longtime school crossing guards retired at the end of the school year. We thank Lorrie Zurich for her many years of service to the town. Congratulations, and best of luck to both in the future. The Police Department is looking for new crossing guards. If you have any interest in a position, please email Lt. Alisha Foley at afoley@montvaleboro.org.

Montvale Volunteer Fire Department

October 4 to 10 is National Fire Prevention Week. This year's theme is "Serve Up Fire Safety in the Kitchen." Cooking is the leading cause of home fires and home fire injuries in the U.S. Make sure you have working smoke detectors. Most people don't know but smoke detectors have a 7 to 10 year life and carbon monoxide detectors have a 5 to 7 year life. Test your smoke detectors once a month and if your smoke detectors have replaceable batteries, change them twice a year (when you change your clocks).

The Montvale Fire Department is made up of 35 volunteer firefighters that provide fire protection to the Borough of Montvale 24 hours a day, seven days a week, 52 weeks a year, we are starting a membership drive and are looking for new members to join us. No experience is necessary and free training is provided. If you are a resident of Montvale and 16 to 18 years old you can become a Junior firefighter. If you are 18 years old or over, you can become a regular fire fighter.

If you would like to help your fellow neighbors, stop down at the fire house on the first, second, or fourth Thursday of the month at 8 PM or call the fire house at (201) 391-4240 and leave a message and somebody will get in touch with you.

Board of Health: Don't waste fall by being sick. Get a flu shot; it's super quick

As the weather becomes colder, our days become shorter, and our wardrobe turns from shorts to jeans, we know Fall and Winter are slowly approaching! One way we can take action to protect our health is by getting a flu shot. A new respiratory virus, COVID-19, has been introduced into our communities. This virus is caused by infection with a new coronavirus strain (called SARS-CoV-2), which may often "copy" signs and symptoms of the flu.

Flu vaccination has significant benefits. It can reduce flu illnesses, doctor's visits, and missed work and school due to flu and prevent flu-related hospitalizations. This year more than ever, the Center for Disease Control and Prevention (CDC) recommends that all individuals six months and older, including pregnant women, receive a yearly flu shot to protect themselves and others from getting the flu. A person sick with the flu can quickly develop a secondary infection such as pneumonia or the coronavirus this year.

Board of Health - Continued

According to Judy Persichilli, Health Commissioner, the national goal is to have 70% of the population vaccinated. Despite eliminating many workplace flu shot clinics and big events at local health departments, health officials are also urging people to get the vaccination during September-October to protect themselves from the virus's effects. The typical flu season starts in October and can extend to May.

Because some of the symptoms of flu and COVID-19 are similar, it may be hard to tell the difference between the viruses based on symptoms alone. Testing may be needed to help confirm a diagnosis.

Symptoms of the flu include:

- Muscle Aches
- Headaches
- Runny Nose
- Tiredness
- Fever
- Cough
- Sore Throat

COVID-19 shares symptoms similar to the flu, but adds the loss or change in taste and smell.

If a person has COVID-19, it could take them longer to develop symptoms versus the flu. A person with the flu will usually show signs 1-4 days, and someone with COVID-19 can develop symptoms 2 to 14 days after infection.

To avoid getting or spreading the flu, you should stay home from social activities as much as possible. Severe complications of the virus can result in hospitalization or even death. Most people who get influenza will recover in several days to less than two weeks, but some will develop complications such as pneumonia due to the flu.

Both can be prevented by mask-wearing, frequent and thorough hand washing, coughing into the crook of your elbow, staying home when sick, and limiting contact with infected people. Physical distancing limits the spread of flu and COVID-19 in communities.

Please visit your primary doctor or call your pharmacy for flu clinics' times and locations to receive your annual flu shot. You may also call Northwest Bergen Regional Health Commission at (201) 445.7217.

For more information on influenza, please visit the CDC's website:
