

BOARD OF HEALTH NEWS

By Joyce Cohen

President, Board of Health

The Northwest Bergen Regional Health Commission has taken the initiative to bring participating communities together for ongoing emergency management informational sessions. Health Officer Angela Musella has spearheaded these meetings. Captain J. J. Frederick of the Montvale Police Department is in charge of Montvale's Emergency Management Team. As a result of the first session, held on Monday, February 12, 2007, municipalities were given an opportunity to assess existing mechanisms and examine ways for improvement.

An *updated* list is needed which identifies all homebound Montvale residents.

If you are affected by the above, kindly fill out the form below so that we can begin our improvement process. Advanced planning will ensure that everything possible is being done should an emergency occur. If there are any questions, do not hesitate to contact the Board of Health at 201-391-5700, Extension 252.
