**IMPORTANT TO NOTE:** The removal of trees of significant size can create additional, unforeseen expenses to the homeowner. **Extensive tree removal can alter the drainage of the site negatively impacting neighboring properties and can result in extensive soil movement on the site when large stumps are removed. Both of these situations lead to the property owner incurring expensive engineering fees, county soil conservation permits, construction delays, and soil movement permits.** I have read and understand the need for this review. I have tagged all trees with ribbons to designate those to be removed.
