Borough of Montvale
12 Mercedes Drive
Montvale, NJ 07645

**Re: Garden State Parkway Interchange #172
Proposal to Provide Professional Services
KSE #2016-517**

Dear Mayor Ghassali:

Thank you for meeting with Sam Lahdo-Abdi and myself this morning to discuss the proposed new northbound connection ramp to the Garden State Parkway (GSP) from Summit Avenue. As we discussed, before initiating the design work, KS Engineers, P.C. (KSE) will contact the New Jersey Turnpike Authority (Authority) to set up a meeting between the Borough of Montvale and the Authority to discuss the construction of the northbound on-ramp from Summit Avenue.

Our SCOPE OF WORK is as follows:

1. KSE will meet with the Borough of Montvale to discuss the project and proposed developments that will benefit and/or impact this proposed project. KSE will develop a map showing the location and the various types of development to be constructed. We will also prepare a list summarizing the number of vehicle trips that will be generated by each of these projects from previous traffic impact reports. The Borough will provide the traffic impact reports or sufficient information so KSE can calculate the number of vehicle trips that would be generated by each project.
2. KSE will prepare a letter to the Authority's Chief Engineer, Mr. Robert Fischer, P.E., explaining the history and rationale for the proposed project. This letter will be signed by KSE and the Mayor.
3. KSE will schedule a meeting with the Authority at their offices at 581 Main Street in Woodbridge, NJ. to further discuss this project. The goal of the meeting is to establish the procedures and schedule to move this project forward from conceptual design through construction. We will also discuss the design standards to be used and funding mechanisms for the project.

Mayor Michael Ghassali

October 18, 2016

Re: Garden State Parkway Interchange #172
Proposal to Provide Professional Services
KSE Project # 2016-517

Page 2

4. KSE will prepare a conceptual sketch showing the location of the proposed on-ramp and its connection to the existing northbound (GSP). This sketch will be included with the letter to the chief engineer.
5. KSE will attend the meeting with the Mayor and Borough representatives to explain the project and answer NJTA's questions related to traffic and construction.

As a follow up to the meeting, KSE will prepare meeting minutes summarizing the next steps that should be undertaken by the Borough and NJTA to move this project forward.

FEE

We propose a not-to-exceed fee of \$19,000.00. Our hourly rate schedule for out of scope work or continued work once the not-to-exceed amount is expended is:

Project Manager	- \$220.00/hr
Senior Traffic Engineer	- \$197.00/hr
CADD Technician	-\$87.50/hr

**Sincerely yours,
KS Engineers, P.C.**

**BOROUGH OF MONTVALE
BERGEN COUNTY, NEW JERSEY
RESOLUTION NO. 182-2016**

RE: Awarding Professional Service Contract/Engineering Services/Design Services/Inspection Services/Huff Terrace/Emergency Repair/Maser Consulting, LLC

WHEREAS, the Borough of Montvale has deemed it necessary to engage the professional services of an Engineer to provide professional Design services and Site Inspection for the emergency repair for the Huff Terrace emergency repair Maser Consulting prepared bid documents and coordinating the Contractors to solicit prices for this work; and

WHEREAS, section N.J.S.A. 40A:11-5 of the Local Public Contracts Law, (N.J.S.A. 40A:11-1 et seq.) exempts such professional services from competitive bidding; and

WHEREAS, Maser Consulting, 200 Valley Road, Suite 400, Mt. Arlington, NJ 07856 has submitted a proposal dated October 24, 2016 to provide these services which is attached to the original of this resolution, and

WHEREAS, the Certified Municipal Finance Officer has certified funds are available certification hereto attached to the original of this resolution.

NOW, THEREFORE BE IT RESOLVED by the Borough of Montvale as follows:

- 1) That the proposal for the scope of engineering services is attached to this resolution which is made part of this resolution shall be awarded to Maser Consulting.
- 2) That the following be provided: Professional Design Services and Site Inspection.
- 3) The cost not to exceed shall be \$19,500.00. The Engineer shall be required to submit itemized bills and payment shall be made based upon services rendered. The rates for this work are in accordance with the hourly contractual agreement with the Borough of Montvale.

BE IT FURTHER RESOLVED, that a copy of this resolution be published an official newspaper of the Borough of Montvale, be on file, available for public inspection, in the office of the Municipal Clerk, Municipal Complex, 12 Mercedes Drive, Montvale, NJ 07645.

MEMORANDUM

To: Maureen Iarossi-Alwan, Borough Clerk/Borough Administrator
From: Andrew R. Hipolit, P.E., P.P., C.M.E. 
Date: October 24, 2016
Re: Huff Terrace Culvert Emergency Repair
Proposal for Design and Inspection Services
MC Project No. MVB-473

As you are aware, our office was requested by the Borough of Montvale to prepare a Request for Proposal and directly solicit contractors for the Huff Terrace Emergency Repairs. This involves Maser consulting preparing bid documents and coordinating with Contractors to solicit prices for this work.

As requested, Maser Consulting will be providing design services for the above referenced project. The design services will include:

- Site inspection to verify existing conditions
- Coordination with the DPW on the proposed improvements
- Preparation of Plans and Specifications as required
- Emergency Bidding Services

The proposed work includes replacement of the culvert in kind, replacement of two (2) inlets, milling, paving and the installation of some curbing where needed to complete the project.

As part of this project, Maser Consulting will also oversee the work, which will include coordination with the Contractor, review of shop drawings, attendance at onsite meetings, construction observation services and project close-out.

Maser will perform these design and inspection services for a cost not to exceed \$19,500.00.

Please contact me, should you have any questions.

**BOROUGH OF MONTVALE
BERGEN COUNTY, NEW JERSEY
RESOLUTION NO. 184-2016**

RE: A Resolution Encouraging the Pascack Valley Regional High School District Board of Education to Videotape its Public Meetings

Whereas, transparency and public participation are of paramount importance to efficient and effective governance; and

Whereas, New Jersey law currently does not require municipal governing bodies or school boards to videotape or otherwise record their public meetings; and

Whereas, certain members of the public have raised concern with the Governing Body of the Borough of Montvale that the public meetings of the Pascack Valley Regional High School District Board of Education (the "Board of Education") are currently not recorded; and

Whereas, the Governing Body recognizes that it has no jurisdiction over this issue, which is within the exclusive purview of the Board of Education; and

Whereas, nevertheless the Governing Body of the Borough of Montvale would like to express its recommendation and opinion that it would be beneficial for the Board of Education to consider recording its meetings for the benefit of the public.

Now, Therefore, Be It Resolved that the Governing Body of the Borough of Montvale does hereby encourage the Pascack Valley Regional High School District Board of Education to consider recording its public meetings and, if possible, playing such recordings on the MontVale Access channel in order to permit a greater number of residents to observe the discussions and actions taken at such meetings.

Be It Further Resolved that the Borough Clerk shall forward a copy of this Resolution to the Board of Education.

October 11, 2016

Borough of Montvale
ATTN: Maureen Iarossi-Alwan, Borough Clerk
Borough Hall
12 Mercedes Drive
Montvale, NJ 07645

Dear Ms. Iarossi-Alwan:

Verizon Wireless is in the process of planning to upgrade and enhance its network for 2017 by deploying small network nodes in the public right-of-way. Part of the planning process includes securing the permissions necessary for that deployment.

Obtaining consent from municipalities to locate and operate in the right-of-way is the first level of permission that Verizon Wireless seeks. Verizon Wireless would like to receive non-site specific consent granting permission to locate and operate in the right-of-way in the Borough of Montvale by attaching to existing and new utility poles, and would later obtain any required site specific consents for each node through the building departments. As such, Verizon Wireless is requesting consent from the Borough Council of the Borough of Montvale to use facilities lawfully erected in the public right-of-way for small network nodes, and respectfully requests to be placed on the next available agenda for consideration of this request by the Borough Council.

To facilitate this request, Verizon Wireless has provided a fact sheet with details of the proposal, a proposed form of resolution for adoption by the Borough Council and relevant statutes for reference.

By way of the above, Verizon Wireless hereby submits this application for authorization by the Borough Council of the Borough of Montvale to locate and operate small network nodes in the public right of way by attaching to existing and new utility poles.

Verizon Wireless hereby authorizes employees of Tilson Technology Management, Inc. to deliver this request, to represent Verizon Wireless at meetings of the Borough Council and to discuss this proposal with officials of the Borough of Montvale.

Questions about this proposal can be directed to Kathryn Windsor at (816) 351-6208, or kwindsor@tilsonotech.com. Notices regarding this proposal and hearing date should be sent electronically to kwindsor@tilsonotech.com, or by mail to:

Tilson

Fact Sheet

What is Verizon Wireless Planning in Montvale Borough?

Verizon Wireless is deploying small network nodes in the municipal and county rights-of-way in New Jersey, which enables it to increase coverage and network data capacity. Small network nodes are a low-powered wireless technology that involves the use of antennas, two to three feet long, and radio cabinets, approximately 20-inches wide and 55-inches tall, which are mounted on existing or new utility poles or light poles which are lawfully erected in the public right-of-way. These network nodes augment the coverage from new and existing tower and rooftop sites, providing signal in terrain challenged areas. They are also an important part of Verizon Wireless' capacity focused mobile network. These small network nodes will help provide residents, commuters, and emergency responders in Montvale Borough access to the next generation of wireless networks, and a roadmap toward upcoming emerging wireless technologies like 5G.

Small network nodes are typically deployed in areas that have some existing Verizon Wireless service, but where the coverage needs to be augmented. Capacity may also be exhausted at various times due to high demand when there are many users performing high-data usage functions (streaming video, uploading files, sending photos, using GPS, etc.). This sector exhaust is likely to increase as the technology used by network subscribers on multiple devices becomes exponentially more sophisticated. Without reliable coverage or when sector exhaust occurs Verizon Wireless network users will have insufficient network access, leading to dropped calls, a potential degradation of 911 services, and the inability to access applications, email, internet and GPS, all of which have potential impacts on public safety.

Small network nodes can be used to offload data capacity from the existing sites, freeing them up for others trying to make phone calls and use data anywhere within their radio frequency footprint. They can also be used to augment coverage from the existing macro network. In this way small network nodes complement macro sites, but are not a substitute for them. Small network nodes are located near street level where they can serve high traffic areas such as outdoor recreation facilities, homes, heavily-traveled roadways and intersections. The functional distance of a small network node is dictated by line of sight, and is limited by its low power.

The consent that Verizon Wireless is seeking from Montvale Borough is permission to operate in the public right of way. This consent will not allow Verizon Wireless to construct nodes without site-specific review by the building department.

Why are Small Network Nodes so Important?

Small network nodes fill in coverage and capacity gaps created by both sector exhaust and by the inability of larger macro sites to fill in those small gaps. Providing network coverage and data capacity to all users in both their homes and on the road is increasingly important. Between 2014 and 2015 the number of “wireless only” homes surpassed the number of homes with both landline and cell phone connectivity.

The Rise Of The Cellphone-Only Household

Share of households, by type of phone

Source: CDC/NCHS, National Health Interview Survey

Credit: Alyson Hurt and Ailna Salyuk/NPR

Additionally, the National Highway Traffic Administration reported in February, 2016 that 76% of all 911 calls originate from a cell phone. Having a strong wireless network is not just for convenience, but is also necessary for public safety.

The use of wireless devices is increasing exponentially. In the United States there are 355 million wireless devices in use by 319 million residents (CTIA, June 2015). The demand for wireless data services has nearly doubled over the last year, and is expected to grow 650% between 2013 and 2018 (Cisco, VNI Mobile Forecast Highlights, 2013-2018). The increased use of smart phones, tablets, health monitors and other wireless devices in everyday life relies on the Verizon Wireless Network. Small cell networks will add coverage and capacity and improve in-building coverage, voice quality, reliability and data speeds for Montvale Borough residents, businesses, first responders and visitors using the Verizon Wireless Network. Having adequate coverage has become a necessity of daily life and for public safety.

Are Small Network Nodes Safe?

The FCC, in consultation with numerous other federal agencies, including the Environmental Protection Agency, the Food and Drug Administration and the Occupational Safety and Health Administration, has developed safety standards designed to protect against adverse health effects. The standards were developed by expert scientists and engineers after extensive reviews of the scientific literature related to radio frequency (RF) biological effects. The FCC explains that its standards "incorporate prudent margins of safety." It explains further that "radio frequency emissions from antennas used for cellular and PCS transmissions result in exposure levels on the ground that are typically thousands of times below safety limits."

The FCC provides information about the safety of RF emissions from wireless base stations on its website at: <http://www.fcc.gov/oet/rfsafety/rf-faqs.html>. In general, due to their small size, low wattage and limited coverage, emissions from small network nodes are a small fraction of FCC-permitted levels in any publicly accessible area.

Where are Small Network Nodes Placed?

Small Network Nodes are most often attached to wood utility poles in the public right-of-way. Verizon Wireless always looks to attach to existing utility poles as a first option, however, due to utility company restrictions, only a small percentage of existing utility poles meet the requirements for attachment. In situations where, because of utility company requirements, Verizon Wireless cannot attach to existing wood utility poles they will request that a public utility set a new pole for their use. The pole will be set in the public right-of-way, and will be of the same size and type that the public utility is permitted to set in the area so as not to be out of character with the current infrastructure.

In locations where there are no existing wooden utility poles, such as downtown areas or newer subdivisions with underground utilities, Verizon Wireless will not place new wooden poles, and would instead seek to have placed new or replacement stealth fixtures that integrate the small network node equipment into a streetlight structure. This would be a different phase of the development and Verizon Wireless would approach the municipality with a new proposal for this type of development.

Photographic representations of all of the above-referenced small network node deployment types are provided on the following pages.

Verizon Wireless Small Network Node on Existing Wood Utility Pole

Verizon Wireless Small Network Node on a New Wood Utility Pole

What is Verizon Wireless seeking from Montvale Borough?

A provision of the New Jersey Public Utility Act, N.J.S.A. 48:3-18 (copy enclosed), permits any company (not necessarily public utilities) to use poles that have been lawfully erected in the public right-of-way. Where the second company is not itself a franchised utility, which is the case with Verizon Wireless, the consent of the municipality is required under N.J.S.A. 48:3-19 (copy enclosed). A form of proposed resolution for adoption to formalize such consent is attached.

Can Montvale Borough Reject the Request?

Under Federal law, specifically Section 253 of the Federal Telecommunications Act, 47 U.S.C. 253 (copy enclosed), the municipality may not withhold approval, but it may impose reasonable conditions, such as requiring insurance and repair to any damage caused, which have been included in the attached proposed resolution.

What Sort of Fee is Allowable?

Montvale Borough may not impose a tax on these facilities, but it is entitled to recover the reasonable costs for actual services that it incurs in reviewing and approving Verizon Wireless' request. The relevant state statute is N.J.S.A. 54:30A-124 (copy enclosed).

What is Verizon Wireless NOT seeking to do in Montvale Borough?

Verizon Wireless is aware that many wireless service providers and other telecommunications infrastructure providers are also seeking consent from municipalities in New Jersey to install wireless transmitting equipment in the public rights of way. Understanding the visual sensitivities of residents and Borough leaders, Verizon Wireless is committed to first, using existing infrastructure, and second, only installing new infrastructure when necessary, and ensuring that any new infrastructure is in character with the existing streetscape. Additionally, Verizon Wireless will not install new wood poles that are substantially taller (10%) than existing utility poles, or install utility poles made of steel or other non-wood material in an area with existing wood utility poles.

Verizon Wireless is seeking this consent exclusively for their own equipment to provide services to customers using the Verizon Wireless network. The consent from the municipality will not be used by Verizon Wireless to construct infrastructure to be leased to others.

RESOLUTION OF THE BOROUGH COUNCIL OF THE BOROUGH OF MONTVALE

No. _____

Date of Adoption _____

WHEREAS, New York SMSA Limited Partnership d/b/a Verizon Wireless, ("Verizon Wireless"), is a provider of commercial mobile service subject to regulation by the Federal Communications Commission; and

WHEREAS, Verizon Wireless has entered into agreements with parties that have the lawful right to maintain poles in the public right-of-way pursuant to which Verizon Wireless may use such poles erected within the public right-of-way in the Borough of Montvale; and

WHEREAS, New Jersey law permits such use provided that there is the consent of the relevant municipality;

NOW THEREFORE BE IT RESOLVED BY THE BOROUGH COUNCIL OF THE BOROUGH OF MONTVALE, COUNTY OF BERGEN, STATE OF NEW JERSEY THAT:

1. Permission and authority are hereby granted to Verizon Wireless and its successors and assigns, to use poles erected by parties that have the lawful right to maintain poles within the public right-of-way in the Borough of Montvale, subject to the following:
 - A. Verizon Wireless, and its successors and assigns, shall adhere to all applicable Federal, State, and Local laws regarding safety requirements related to the use of the public right-of-way.
 - B. Verizon Wireless, and its successors and assigns, shall comply with all applicable Federal, State, and Local laws requiring permits prior to beginning construction, and shall obtain any applicable permits that may be required by the Borough of Montvale.
 - C. Such permission be and is hereby given upon the condition and provision that Verizon Wireless, and its successors and assigns, shall indemnify, defend and hold harmless the Borough of Montvale, its officers, agents, and servants, from any claim of liability or loss or bodily injury or property damage resulting from or arising out of the acts or omissions of Verizon Wireless or its agents in connection with the use and occupancy poles located within the public

right-of-way, except to the extent resulting from the acts or omissions of the Borough of Montvale.

- D. Verizon Wireless shall, at its own cost and expense, maintain commercial general liability insurance with limits not less than \$1,000,000 for injury to or death of one or more persons in any one occurrence and \$500,000 for damage or destruction to property in any one occurrence. Verizon Wireless shall include the Borough of Montvale as an additional insured.
- E. Verizon Wireless shall be responsible for the repair of any damage to paving, existing utility lines, or any surface or subsurface installations, arising from its construction, installation or maintenance of its facilities.
- F. Notwithstanding any provision contained herein, neither the Borough of Montvale nor Verizon Wireless shall be liable to the other for consequential, incidental, exemplary, or punitive damages on account of any activity pursuant to this instrument.
- G. This instrument shall be adopted on behalf of the Borough of Montvale by the Borough Council of the Borough of Montvale and attested to by Borough of Montvale Clerk who shall affix the Borough of Montvale Seal thereto.
- H. The permission and authority hereby granted shall continue for the same period of time as the grant to parties whose poles Verizon Wireless is using.

STATEMENT

This resolution authorizes Verizon Wireless to use poles erected within the public right-of-way of the Borough of Montvale by parties that have the lawful right to maintain such poles.

United States Code Annotated

Title 47. Telecommunications (Refs & Annos)

Chapter 5. Wire or Radio Communication (Refs & Annos)

Subchapter II. Common Carriers (Refs & Annos)

Part II. Development of Competitive Markets (Refs & Annos)

47 U.S.C.A. § 253

§ 253. Removal of barriers to entry

Effective: February 8, 1996

Currentness

(a) In general

No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service.

(b) State regulatory authority

Nothing in this section shall affect the ability of a State to impose, on a competitively neutral basis and consistent with section 254 of this title, requirements necessary to preserve and advance universal service, protect the public safety and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers.

(c) State and local government authority

Nothing in this section affects the authority of a State or local government to manage the public rights-of-way or to require fair and reasonable compensation from telecommunications providers, on a competitively neutral and nondiscriminatory basis, for use of public rights-of-way on a nondiscriminatory basis, if the compensation required is publicly disclosed by such government.

(d) Preemption

If, after notice and an opportunity for public comment, the Commission determines that a State or local government has permitted or imposed any statute, regulation, or legal requirement that violates subsection (a) or (b) of this section, the Commission shall preempt the enforcement of such statute, regulation, or legal requirement to the extent necessary to correct such violation or inconsistency.

(e) Commercial mobile service providers

Nothing in this section shall affect the application of section 332(c)(3) of this title to commercial mobile service providers.

(f) Rural markets

§ 253. Removal of barriers to entry, 47 USCA § 253

It shall not be a violation of this section for a State to require a telecommunications carrier that seeks to provide telephone exchange service or exchange access in a service area served by a rural telephone company to meet the requirements in section 214(e)(1) of this title for designation as an eligible telecommunications carrier for that area before being permitted to provide such service. This subsection shall not apply--

(1) to a service area served by a rural telephone company that has obtained an exemption, suspension, or modification of section 251(c)(4) of this title that effectively prevents a competitor from meeting the requirements of section 214(e)(1) of this title; and

(2) to a provider of commercial mobile services.
